

Premium Sod Blend

FORMULATION

100% Proprietary Kentucky Bluegrass (5 elite varieties)

NOTABLE CHARACTERISTICS

- A beautiful lawn of top rated KY Bluegrass varieties
- Lush, Dark green color
- Fine textured leaf blades
- Excellent disease resistance
- Use in full sun to partial shade
- Requires higher maintenance (more watering and fertilizer)

By sowing Premium Sod Blend you can have a beautiful, lush, dark green lawn...just like sod! Premium Sod Mix includes only varieties that have excellent to very good ratings in NTEP* trials for disease ratings, genetic color, density and over-all turf quality. Premium Sod is an excellent blend for new lawns or for interseeding into established lawns.

SEEDING RATE

New Lawn 3 lbs/1,000 sq. ft. or 150lbs/A
Overseeding 2 lbs/sq. ft.

NOTES ON PROPRIETARY KY BLUEGRASS:

Kentucky Bluegrass is the most popular type of lawn grass in the Midwest. Proprietary bluegrass varieties are very dark green and beautiful. Kentucky Bluegrass also mixes well with ryegrass to provide a very nice lawn. Bluegrass takes the most maintenance of any turfgrass and will go dormant before ryegrasses and tall fescues. Bluegrass generally germinates in 20-25 days.
